**Fred** trolley is the most representative of Filmop plastic wet mopping trolleys. Composed of one single polypropylene frame, for which Filmop has obtained an **invention patent**, Fred trolley is strong and handy.

Since 2012, together with the Orion line of trolleys designed for the smaller environments, it has been certified "**Plastic Second Life**", as it is made of recycled plastic materials, according to the **Green Public Procurements** environmental policies.

**Vega** trolleys are built starting from the single plastic frame used for the Orion trolley, assembling all the available snap-in components very easily and quickly and above all **without using any screw**.

It's a line of compact trolleys, ideal for all small environments: offices, post offices, banks, bars and the like.

Since 2013 these trolleys have been certified "**Plastic Second Life**", as they are made of recycled plastic materials, according to the **Green Public Procurements** environmental policies.

## PLASTIC SINGLE BUCKETS

## WRINGERS

**Arka** trolleys are built starting from the double plastic frame used for the Fred trolley, assembling all the available snap-in components very easily and quickly and above all **without using any screw**.

Arka is the most compact among Filmop multipurpose trolleys: even in the smallest places the operator has a complete professional cleaning system at his disposal.

Since 2013 these trolleys have been certified "Plastic Second Life", as they are made of recycled plastic materials, according to the **Green Public Procurements** environmental policies.

PLASTIC SINGLE BUCKETS

WRINGERS

Our **Jumpy** single plastic bucket differs from all the other ones as it is higher than the traditional buckets, thus being more ergonomic and preventing the operator from bending. The bucket can be piled up thanks to the plastic feet that can be easily unassembled saving transport and storing costs. It fits all Filmop plastic wringers.

WRINGERS

**Twice** is the double bucket with wringer for professional floor wet mopping, designed to guarantee the best service and profitability during cleaning operations. It has a total 30 L capacity and it is equipped **with two drain-plugs**; thanks to its two compartments, it separates clean solution from rinsing water. The bucket can be piled up thanks to the plastic feet that can be easily unassembled saving transport and storing costs. It fits all Filmop plastic wringers.

Two compartments 16 L + 14 L

PLASTIC MOP TROLLEYS

CHROMED AND RILSAN COATED TROLLEYS

PLASTIC SINGLE BUCKETS

WRINGERS

**Regular** wringer is composed of a polypropylene structure and gears.

The jaws go all the way down to the bottom of the wringer, allowing a perfect wringing both of string mops (till 450 gr) and of flat wet mops.

It is equipped with a revolving handle holder and a front cover in order to avoid unpleasant dripping while squeezing.

**Regular** fits any kind of wet mopping system.

Washing

Rinsing

Wringing

## Regular wringer

**REGULAR** - plastic down-press wringer with plastic gears

ART.  
7004A

**Punto** wringer has been conceived without bottom in order to rinse and wring the flat mops directly through the wringer into the bucket, reducing working time and avoiding unpleasant dripping on the floor.

It is equipped with a painted metal handle with return spring making its use easier.

## Punto wringer

**PUNTO** - plastic wringer with adjustable roll

Washing

Rinsing

Wringing

ART.	NOTES
14000A	roll with central position (for a standard wringing performance)
12000A	roll with position "-" (for a lighter wringing performance)
10000A	roll with position "+" (for a stronger wringing performance)

**NEW**

**Today available in a new version with adjustable roll**, planned to improve its technical performances, flexibility and efficiency.

Now it is possible to regulate the roll position very easily in order to adapt the roll to any wet mopping system employing 40 cm flat mops and to different wringing requirements.

**Filmop will go on supplying it with the requested roll position according to your needs:**

**POSITION -**

Art. 12000A:  
for a lighter wringing performance

**CENTRAL POSITION**

Art. 14000A:  
for all types of mops and for a standard  
wringing performance

**POSITION +**

Art. 10000A:  
for a stronger wringing performance
